Rule No. 9

RENDERING AND PAYMENT OF BILLS

(Continued)

(1) Metered Service

The amount of the readiness to serve charge and the quantity in each of the quantity rate blocks will be prorated on the basis of the ratio of the number of days in a period to the number of days in an average billing period. The measured quantity of usage will be applied to such prorated amounts and quantities.

(2) Flat Rate Service

The billing period charge will be prorated on the basis of the ratio of the number of days in the period to the number of days in an average billing period.

(3) Average Billing Period

The number of days in an average billing period is defined as 365 divided by the number of billing periods in a year (30.4 days for a monthly billing period).

B. Payment of Bills

1. Bills for service are due and payable upon presentation, and payment may be made at the commercial office of the utility or to any representative of the utility authorized to make collections. Collection of closing bills may be made at the time of presentation. If a customer tenders a check in payment of any bill and such check is not honored by the customer's bank, or if the payment of a customer enrolled in the Automatic Payment Service program is rejected by the customer's bank or payment service, the utility may assess the customer a service charge of \$4.75.

2. At the option of the customer, a credit or debit card payment can be made through a third-party vendor. A non-refundable convenience fee of \$1.75 per transaction shall apply. That convenience fee will be over and above the utility bill amount and may be charged to the customer by a third party vendor for this service and will not be on the utility billing statement. For customers with more than one account, a separate transaction fee is necessary for each account. (N)
