With this advice letter, SJWC requests authorization to implement a rate increase of \$24,331,436 or 5.9% to offset the increases to purchased potable water charges, the ground water extraction fee, and purchased recycled water charges that will be implemented by SJWC’s water wholesalers effective July 1, 2022.

These tariffs are submitted pursuant to General Orders (GO) No. 96-B Water Industry Rules 7.3.1(7) and 8.4. This advice letter is designated as a Tier I Advice Letter. SJWC requests that the surcharges become effective on July 1, 2022.

Background

On June 9, 2021, SJWC filed Advice Letter 561A (AL 561A) to include in rates the increase in purchased water, pump tax, and recycled water costs from its wholesaler.

At its May 10, 2022 meeting, the Valley Water's Board of Directors formally adopted water rate increases for the 2022-2023 fiscal year, raising the groundwater rate (pump tax) to \$1,724 per Acre Foot (AF) and purchased water rate to \$1,839/AF effective July 1, 2022. The groundwater rate will increase by \$225/AF from the July 1, 2021 rate of \$1,499/AF (AL 561A) and the purchased water rate will increase by \$225/AF from the 2021 rate of \$1,614/AF (AL 561A).

Valley Water's groundwater charge for agricultural water will increase to \$36.85/AF which affects the agricultural discount provided by Valley Water and passed through in SJWC's tariffs. The current discount is \$3.3628/ccf will increase to \$3.8732/ccf ($\$1,724/AF - \$36.85/AF = \$1,687.15/AF = \$3.8732/ccf$).

The updates to purchased water rate, groundwater rate, and agricultural discount are reflected as Special Conditions in SJWC's tariff for Schedule No. 1 General Metered Service, Schedule No.1C General Metered Service Mountain District, and Schedule No. RW Raw Water Meter Service.

Changes to the rate for untreated water also affect the rate for purchased recycled water. South Bay Water Recycling, SJWC's wholesale recycled water provider, indexes recycled water wholesale rates to the rates charged by Valley Water for untreated water, with appropriate discounts for irrigation, industrial, or agricultural use. The recycled water discount remains at \$105 for irrigation, industrial, and agricultural uses. Effective July 1, 2022, wholesale recycled water rates will be increased by \$225 per AF from adopted July , 2021 rate of \$1,394 to \$1,619 per AF.

This updated to recycled water rate is reflected as Special Conditions in SJWC's tariff for Schedule No. RCW for Recycled Meter Water Rate.

Please see **Attachment A** for actual rate effective July 1, 2022.

The following is a summary of total increase in costs:

Increase in Purchased Water	\$15,379,992
Increase in Ground Water Charge	\$8,380,110
Increase in Purchased Recycled Water	\$571,334
Increase in Taxes and Uncollectibles	\$92,882
Total Increase in Costs	\$24,331,436

Copies of detailed workpapers supporting the proposed rate increase and rate calculation have been provided to the Commission Staff in accordance with Standard Practice U-27-W.

Public notice of the offset rate adjustment will be completed by placing a notice (**Attachment B**) in the San Jose Mercury News as soon as possible. Proof of publication will be submitted to the Commission when the notification has been completed. In compliance with Paragraph 4.3 of

General Order 96-B, a copy of this advice letter has been emailed to all interested and affected parties as detailed in **SJWC's Service List**.

Effective Date

SJWC requests that the updated tariff sheets become effective July 1, 2022.

2. That on the 25th day of February 2022, said report was duly delivered to the Clerk of the Valley Water Board;
3. That the Clerk, pursuant to Section 26.6 of the District Act, gave due notice of the receipt of the report and of a public hearing to be held commencing on the 12th day of April 2022, by teleconference, videoconference, or both and at the time stated;
4. That on February 25, 2022, written notice was mailed to all owners and operators of water-producing facilities within Valley Water’s boundaries, advising of the proposed groundwater production charge rates to be levied, and of the opportunities to be heard concerning such charges;
5. That the Governor’s Emergency Declaration related to COVID-19, and the Governor’s Executive Order N-29-20 issued on March 17, 2020, allows attendance by members of the Board of Directors, Valley Water staff, and the public to participate and conduct public meetings and hearings by teleconference, videoconference, or both;
6. That pursuant to Section 26.6 of the District Act and consistent with the Governor’s Executive Order N-29-20, on the 12th day of April 2022, at 6 p.m. via a virtual public hearing held by teleconference and videoconference, an opportunity was given to the public to comment on said report to Board members located at the Valley Water Boardroom and on video conference, was continued for further hearing to the evening of April 14, 2022 (teleconference and videoconference) and again to the evening of April 26, 2022 (teleconference, videoconference and in-person attendance in the Valley Water Boardroom located at 5700 Almaden Expressway, San Jose), and said public hearing was duly commenced and concluded, more than 45 days after notice of the hearing was given;

Determining Groundwater Production Charges for Fiscal Year 2022–2023

Resolution No. 22-29

7. That during said public hearing, additional information and evidence was provided that was considered by the Board in making its decision on groundwater production charges, and the public and all persons subject to groundwater production charges were invited to speak or present written comments at the public hearing;
8. That the charges established by this resolution are for the purpose of paying the cost of constructing, maintaining, and operating facilities to import water into Valley Water; paying the cost of purchasing imported water; paying the cost of constructing, maintaining, and operating facilities for groundwater recharge, surface distribution, and the purification and treatment of water; and paying the principal and interest of any bonded indebtedness or other financial obligations of Valley Water incurred for those purposes;
9. That this Board considered all comments objecting to the proposed groundwater production charge increases for Zones W-2, W-5, W-7, and W-8;
10. That this Board, based on the whole record before it, finds that the revenues derived from the groundwater production charges will not exceed the funds required to provide services to Zones W-2, W-5, W-7, and W-8, as authorized under the District Act, and that the amount levied does not and will not exceed the proportional cost of service; and
11. That the California Environmental Quality Act does not apply to approval of these charges pursuant to the statutory exemption set forth in California Code of Regulations Title 14, Chapter 3, Section 15273, because, as identified in Valley Water's annual report on the protection and augmentation of the water supplies of Valley Water, the charges are expressly made for the purpose of:
 - a. Meeting operating expenses, including employee wage rates and fringe benefits;
 - b. Purchasing or leasing supplies, equipment, or materials;

RE: South Bay Water Recycling Wholesale Rate for the Period of July 1, 2022 through June 30, 2023

Dear Courtney:

This letter is to inform you of the new recycled water wholesale rates that will be in effect during the 2022-2023 fiscal year. As you know, since July 2004 recycled water wholesale rates have been indexed to the rates charged by the Santa Clara Valley Water District (SCVWD) for untreated water, with appropriate discounts for irrigation, industrial, or agricultural use.

We have been notified by the SCVWD that the rate for untreated water will increase from \$1,499/AF to \$1,724/AF during the coming fiscal year (22-23). The recycled water discount per San José City Council Resolution 77326 is now \$105 for irrigation, industrial and agricultural uses. Therefore, the wholesale rates will be increased as shown in the table below. As a result, the following wholesale rates for recycled water will be in effect for the period July 1, 2022 through June 30, 2023:

Type of Use	2021-2022	2022-2023
Irrigation	\$1,394/AF	\$1,619/AF
Industrial/Agricultural	\$1,394/AF	\$1,619/AF

Should you have any questions regarding the new wholesale rates for recycled water, please contact Russ Ficklin at 408-794-6803 or by email at russ.ficklin@sanjoseca.gov.

Sincerely,

Henry Louie

ADVICE LETTER NO. 577

NEWSPAPER NOTICE FOR RATE OFFSET

NOTICE OF ADVICE LETTER FILING SAN JOSE WATER COMPANY'S FILING TO INCREASE WATER RATES ADVICE LETTER 577

Effective July 1, 2022, Valley Water, the wholesale water supply agency to San Jose Water Company (SJWC), will increase rates for purchased water and groundwater extraction fees charged to SJWC. If the CPUC approves this advice letter, effective July 1, 2022, rates will be recalculated to reflect actual water consumption in 2022. This will impact your bill.

Why is SJWC requesting this increase?

SJWC pays fees to pump groundwater and to purchase treated water from Valley Water, Santa Clara County's wholesale water supply agency. On May 10, 2022, Valley Water voted to increase wholesale water charges by 15% effective July 1, 2022 through June 30, 2023. SJWC purchases over 90% of its water supply from Valley Water and delivers it to homes and businesses. The cost of this water supply is passed through to customers at cost. SJWC is filing Advice Letter 577 to recover the pass-through increase.

How could this affect my water bill?

If SJWC's rate request is approved by the CPUC, the monthly bill for the typical residential customer with a 3/4-inch meter using 11 Ccf per month would increase by approximately \$5.76 (or 5.79%) from \$99.43 at present rates, to \$105.19 starting July 1, 2022. This amount will be reflected on customers' bills through the quantity charges as shown below. A comparison of the current and the proposed quantity rates is as follows:

Tariff Schedules No. 1. General Metered Service, Schedule No. 1B General Metered Service With Fire Sprinkler System and Schedule No. 1C General Metered Service, Mountain District

	Current Quantity Rate	Proposed Quantity Rate
Residential Customers		
Tier 1: For Monthly Usage from 0-3 Ccf	\$3.7563	\$4.2720
Tier 2: For Monthly Usage from 4-18 Ccf	\$5.4453	\$5.9620
Tier 3: For Monthly Usage over 18 Ccf	\$7.1338	\$7.6515
All Other Customers		
Quantity Rate	\$5.4453	\$5.9620

Tariff Schedules No. RW Raw Water Service

Current Quantity Rate per Ccf	Proposed Quantity Rate per Ccf
\$5.2157	\$5.7324

Tariff Schedules No. RCW Recycled Water Service

Current Quantity Rate per Ccf	Proposed Quantity Rate per Ccf
\$4.3363	\$4.8575

How does the rest of this process work?

This Advice Letter will be reviewed by staff in the Water Division of the CPUC. They will determine if the request is reasonable and determine if modifications are necessary.
